Organizational Structure

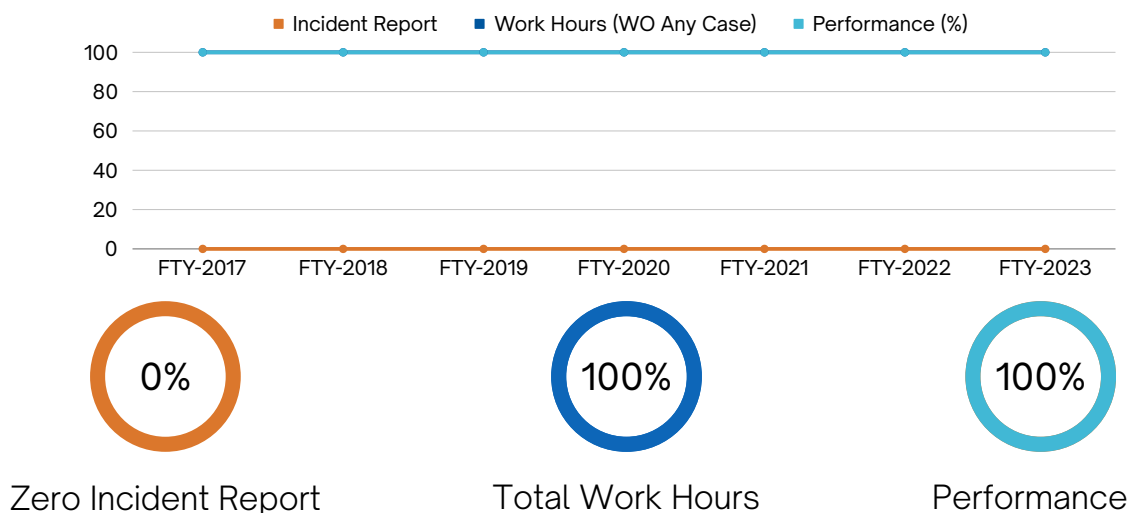

Our Policy

HSE Policy Statement

- It is AJCO's policy to provide and maintain a safe and healthy work environment at all times. The goal of AJCO's top management is to prevent occupational accidents, injuries, illnesses, and environmental issues and this will be achieved by management, who shall place accident prevention and protection of the health and safety of every employee, above any other consideration of job operation or administration.

A Zero Accident Vision (ZAV)

- Based on the assumption that all accidents are preventable by focusing on safety commitment, communication, culture and learning. ZAV is inspiring and innovation in improving safety which is driven by organizational and individual commitment.

- AJCO accepts its responsibility to lead in the promotion and practice of its health and safety program. AJCO shall comply strictly with all legal and regulatory requirements implemented in each country and generally accepted work practices and procedures for the protection and promotion of the safety and health of its employees and others, who may be affected by the group's activities and shall strictly adhere to all site health and safety standards and job work rules and practices.

Our Policy

Environment Policy Statement

- ▶ AJCO recognizes the responsibilities placed on it by the relevant environmental legislation and regulations on the nature, scale, and environmental impacts of its activities, products, and services.
- ▶ AJCO to meet its environmental objectives will provide sufficient resources of time, personnel and finance. It is also the policy of the company to provide information, training and supervision to its workforce in pursuance of these objectives and to do everything reasonably practicable to ensure its sub-contractors provide similar resources and arrangements.
- ▶ It is the duty of all personnel (including suppliers, sub-contractors, and visitors) to take all reasonable precautions to improve our environmental performance by preventing pollution, reducing waste, minimizing hazardous waste, and recycling waste as much as possible.
- ▶ Our legal and moral responsibilities to the environment dictate that we all must know and comply with the environmental regulations and the impact of our operations on the environment. So that this policy can be complied with the contents of this policy shall be made available to all AJCO employees, sub-contractors self-employed personnel, and other interested parties.
- ▶ AJCO follows the ISO 14001 an internationally agreed standard that sets out the requirements for an environmental management system. It helps organizations improve their environmental performance through more efficient use of resources and reduction of waste, gaining a competitive advantage and the trust of stakeholders
